Against Bank Law 113

It was a "clean sweep."

Every republican candidate in Rock

county was elected yesterday.

The detailed vote cannot be given.

nor can the pluralities of congressman

or senators, but the pluralities are all

large.

With but two precincts yet to hear

from Rock county gives Gov. Scofield a

plurality of 2722.

With but five precincts yet to hear

from Rock county gives W. H. Appleby

a plurality of 2024.

The vote on the balance of the state

and county tickets will not vary much

from the above proportions, although

they are likely to go ahead of these

figures if anything. While reports have

been received, as above stated, from

nearly all the voting precincts in the

county, they are not complete, as in

some instances only the vote for gov-

ernor and sheriff—the two places for

which the hardest fight was made—was

given. The precincts outside of the

city that, as general proposition, went

democratic, gave pluralities as follows

on governor and sheriff.

Milwaukee, Wis., Nov. 9—Governor

Scofield and the entire republican ticket
is elected.The republicans elect their state
ticket, eight or nine congressmen, a
working majority in the lower house
and two-thirds of the seventeen senators
elected this year, which will give
them an overwhelming majority in the
senate.Gov. Scofield got within 5 per cent
of the full vote, many democratic sol-

diers standing by him.

On the basis of the returns already
received it looks as if the state ticket
would receive a plurality of between
25,000 and 35,000 and there will be
little difference between the vote for
governor and the rest of the ticket.On congressmen the republicans elect
Cooper in the First district, Babcock in
the Third, Otjen in the Fourth, Barney
in the Fifth, Davidson in the Sixth,Esch in the Seventh, Stewart in the
Ninth, and Jenkins in the Tenth. Theyabout concede the election of Jones,
democrat, in the Second, and it is be-
lieved that Miner in the Eighth will
have a close rub, though he may pul-
through.In the senatorial districts the outlook
is that the republicans will have twelve
out of the seventeen, which will give
them twenty-three in the upper house or
five for the democrats.In the assembly the republicans will
have between sixty and seventy members,
giving them a good majority. From
the returns received it looks as if the
democrats will not get more than thirty
or thirty five assemblymen, if they do
that.Milwaukee county is one of the sur-
prises of the day. Last spring the city
gave Mayor Rose 8,000 majority. From
the returns it seems likely that the
county will be republican by from 2,000
to 3,000. This insures the election of
Congressman Otjen. The republican
county ticket is elected with the possible
exception of sheriff.Washington dispatches from the con-
gressional districts indicate that the re-
publicans have lost congressmen in
New York, New Jersey and Virginia,
and made gains in Kansas and Ne-
braska.Chairman Babcock wires from Wash-
ington as follows: "The returns from
the congressional districts are very in-
complete, and no reliable estimate
can be made. The indications are
that we have carried five of the six
districts in Maryland, the Second district
of Michigan, and the Tenth district
of Texas, both of which were considered
doubtful. We will also have two and
possibly three districts in Kentucky.
Marsh, of Illinois, is regarded as safe. I
see no reason to change my estimate
exception of sheriff."Sawyer 36; Scofield 72; Babbitt

LUMBER INDUSTRY
OF WISCONSIN

VAST PRODUCT OF THE FORESTS OF THE STATE.

Both Pine and Hardwood Timber in Great Abundance—Adds Largely to the Wealth of the State—Results of Denuding the Land May Prove Ruinous.

According to a report written by Filbert Roth, a special agent of the United States department of agriculture, says the Philadelphia Times, the state of Wisconsin, with a population of about 2,000,000, and taxable property to the amount of \$600,000,000, has a home consumption of over 600,000,000 feet of lumber annually, besides enormous quantities of other wood materials, which, if imported into the state, would cost the state over \$25,000,000. Of its northern half, a land surface of over 18,000,000 acres, only 7 per cent. is cultivated, the rest forming one continuous body of forest and waste land. From this area there have been cut during the last sixty years more than 75,000,000,000 feet of pine lumber alone, and the annual output for the past ten years has exceeded 3,000,000,000 feet every year.

The industries exploiting this resource represented in 1890 one sixth of the total taxable property in the state, paid to over 5,000 men the sum of \$15,000,000 in wages and the value of their products was equal to more than one third of the entire output of the agricultural regions. Of an original stand of about 180,000,000,000 feet of pine, about 17,000,000,000 feet are left, besides 12,000,000,000 feet of hemlock and 16,000,000,000 feet of hardwood.

The annual growth which at present amounts to about 900,000,000,000 feet, and of which only 250,000,000 feet is marketable, is largely overbalanced by the natural decay of old and over ripe timber.

At present nothing is being done either to protect or restore the denuded lands, of which fully 80 per cent. are unproductive. This policy causes a continuous and ever-growing loss to the commonwealth, which at present amounts to about 80,000,000 feet every year of useful and much-needed material. A further result is that the spoliation of these forests is making a marked change in the natural climatic condition and is operating injuriously on the amount of rainfall the state should receive.

To remedy this condition, Mr. Roth is of opinion that stringent legislation will have to be immediately adopted, and measures framed to preserve and restock. He concludes his report by saying that, in his opinion, it will be necessary for the state to repossess itself of these lands, either in whole or in great part.

GAVE AN EXCELLENT SHOW

The Gardner Company Was Good But the Audience Was Small.

The storm and the election combined to reduce the audience at the Opera house last evening, and consequently Charles A. Gardner and his excellent company were compelled to play to but a small house. The show was an excellent one. Gardner is as amusing as ever, and is supported by competent artists, all of whom do their best to please. On almost any other night of the season the house would have been crowded, but there was too much interest in the outcome of the election to lure people to a dramatic performance, no matter how great its excellence.

Both the bride and groom are well known young people, and a host of friends will extend congratulations. Mr. and Mrs. Munger will reside in this city.

The regiment returns with forty two officers and 984 men. Colonel Bennett is in command. After a brief inspection at quarantine the Romania proceeded up the bay and anchored off Liberty Island. The men will be landed at Jersey City and sent to Illinois.

CHARGES HAVE BEEN DISPROVED

CHICAGO FOOTBALL PLAYERS SET THEMSELVES RIGHT.

Claim They Have Been Unjustly Accused by Wisconsin—How the Men Will Be Placed in the Game with the Badger Boys on Saturday Next.

The committee appointed by the athletic board of the University of Chicago to draw up a reply to the charges of professionalism made by Wisconsin against the members of the Maroon football team has not completed its investigation of the individual cases, but all the clews followed out thus far tend to exonerate the accused members of the team. Burnett's case, in particular, bids fair to bring forth some startling disclosures as to the method of procedure in securing evidence by the Wisconsin college.

Ewing has no trouble in securing verifications of his statements to the board last Saturday and will have affidavits covering his case in detail. The work of the board will probably result in the complete vindication of all the accused men, except Clarke, whose case has already been acted upon.

The athletic board has taken no action in regard to a severing of relations with Wisconsin, and, if such a thing is contemplated, will hardly do so until after next Saturday's game. The feeling between the two colleges is intense, and, if the board has such a move in view, it will probably be largely influenced by the game next Saturday.

Word was received from Wisconsin that at least 800 students would accompany the team to Chicago. Arrangements are being made at the varsity to hold a monster mass meeting on Marshall Field during football practice next Friday afternoon. A band and various noise-making instruments are being talked of to offset the Wisconsin demonstration.

PLEASSED WITH THE RESULTS

JANESVILLE CITIZENS HEAR ELECTION RETURNS.

Through The Gazette Office To Hear the Good News—There Was General Satisfaction and a Good Deal of Enthusiasm—It Might Have Been Unanimous.

When the polls closed in Janesville last evening the skies were lowering and everything indicated the approach of a storm. But the average citizen was not perturbed. He had done his duty, and the elements had no effect upon him.

Shortly after supper there was a general gathering of those interested in the results at the various downtown resorts. The Gazette office was the rendezvous for a large crowd, for here the returns from every quarter of the country were being received by telegraph and telephone. As the bulletins were read there were many expressions of satisfaction, and along into the night as the figures showed conclusively that the republicans had carried the day, not only in Rock county and the state of Wisconsin, but generally throughout the country much enthusiasm was awakened.

There was no disorder in the city during the election or in the evening hours following. The democrats accepted their defeat philosophically. "We are getting used to it," remarked one, "and I don't know how we would be able to stand a victory. It might upset us completely."

It was past midnight before the crowd at the Gazette office dispersed. All returned to their homes perfectly satisfied with the results. "Of course it might have been unanimous," remarked one, "but the opposition to the G. O. P. is so slight that we have no reason to kick."

The play is one of the greatest successes of the past season, and is pronounced by competent critics to be one of the best productions of modern times.

George Brodhurst's company in "Why Smith Left Home," will be seen at the Myers Grand, December 22. The company is an excellent one. The play was produced by this company at the opening of the Columbia theatre, Chicago, at the opening of the season.

The advance sale of seats for the McKay opera company's season is now on at the Grand opera house. The sale thus far has proved highly satisfactory.

ARE IMPATIENT FOR PEACE.

Spaniards Desirous of an immediate Treaty.

GOVERNMENT WANTS DELAY.

Sagasta Fears Disturbances When a Settlement with the United States Is Finally Made—Nothing Done at Paris Peace Meeting.

Madrid, Nov. 9.—The Spanish people grow more and more impatient daily to have the Paris negotiations over, and the treaty, whatever it be, signed. The government, on the other hand, wants delay. It fears the domestic commotion that is sure to follow the signing of the peace pact. The government is insisting and the people generally believe that the United States will change its position after the elections.

Several Madrid publicists are urging a new idea for the solution of the question before the Paris commission. They advise yielding the territory demanded by the United States without discussion, but they urge that the signatures of the Spanish commissioners to the treaty of peace be withheld until the American government acknowledges that the board of inquiry which passed on the nature of the explosion which wrecked the battleship Maine was in error.

Meeting Adjourns Till Today.

Paris, Nov. 9.—A New York World correspondent cables that at the request of President Day the meeting of the joint peace commission fixed for Tuesday was postponed until today. It is declared by two members of the commission that the postponement of the meeting had no connection with the election, although the coincidence was decidedly remarkable. It can be said that President McKinley has not yet sent his final instructions on the Spanish-Philippine case, although the full text of the Spanish factum was cabled to him Saturday. He will thus have time to modify his attitude on the Philippine question.

Spain Wishes Peace.

Madrid, Nov. 9.—A New York World correspondent cables: Gen. Correa, minister of war, has issued an authoritative contradiction of alleged naval and military preparations. Duke Almodovar has assured the foreign ambassadors that even if the Paris commission failed to make a treaty of peace negotiations would continue with the assistance of French diplomacy or direct with Washington, as Spain emphatically wishes peace.

Burglars Overlook \$7,000.

Kankakee, Ill., Nov. 9.—Burglars literally cleaned out the little village of Danforth, twenty miles south of this city Monday night. They attacked the vault in the Sheldon bank and blew open the doors, but must have been frightened away, as they failed to secure \$7,000 cash locked up inside. Before entering the bank they looted the postoffice, taking \$500 in money and stamps. Cole & Eagon's grain office was visited and property valued at \$75 stolen.

DOCTORS ACKNOWLEDGE IT.

Hospital Physicians Know and Say it Is True.

Marvelous Saving of Health by Dr. Greene's Nervura.

Dr. Greene's Nervura Is Indeed the Most Wonderful Cure In All the World.

Mr. Samuel E. Morgan, of 1633 Rescoe St., Chicago, Ill., broke down completely both physically and mentally, from over-work, so that he was almost a wreck. The family physician could do nothing and he was sent to the hospital, where he remained some months without benefit.

He was recommended by a friend who had been cured by Dr. Greene's Nervura blood and nerve remedy, to take this wonderful remedy. He at once procured this great medicine and was perfectly and completely cured by it, as both the hospital physician and his family doctor acknowledged.

Mr. Morgan says:

"From over-work and disease my system had become thoroughly run down, both physically and mentally, and I was almost a wreck. My family physician could not benefit me any and recommended me to go to the hospital. I re-

mained in the hospital some months and received apparently little or no benefit, and as a last resort, as a drowning man might cling to a straw, I was led to purchase Dr. Greene's Nervura blood and nerve remedy, having had it recommended to me by a party who had been much benefited by its use. From the time I took the first bottle I commenced to gain, and although it may seem strange, I have gained thirty-five pounds while taking this medicine, and all of my family and friends, the hospital physicians and my family doctor acknowledge that it was Dr. Greene's Nervura that brought me out of my trouble and made me a well man again.

"I cannot do otherwise than write these facts, as I feel it my sacred duty so to do, and shall ever deem it a pleasure to recommend Nervura, the medicine that saved me from misery and despair and perhaps from death, and restored me to full health."

If you are sick, in pain, weak, nervous, run down, have stomach, kidney or liver disease, or are in any way out of health, take Dr. Greene's Nervura blood and nerve remedy at once and be cured.

You can consult Dr. Greene, 148 State Street, Chicago, Ill., about your case at any time, absolutely free of charge, personally or by letter.

RESULTS OF THE ELECTION.

Partial returns from forty-two states indicate that the democrats have elected sufficient congressmen to insure a majority of at least thirty in the next house of representatives.

The republicans will probably have a working majority in the United States senate as a result of the election of republican legislatures in states considered doubtful, which will elect republican senators from those states.

The democrats have made gains in several states and have won many congressional seats from the republicans. North Carolina, which was claimed for the republicans, has gone democratic beyond a doubt.

In Alabama, Arkansas, Florida, Georgia, Kentucky, Louisiana, Mississippi, Missouri, South Carolina, Tennessee, Texas, Utah and Virginia the democratic congressional and state tickets are elected. Several other doubtful states are yet to be heard from.

Theodore Roosevelt is elected governor of New York by a majority which at this writing does not appear to exceed 20,000, although earlier it was placed at 40,000.

Platt's man Quigg was beaten for congress in New York by William Astor Chanler, democrat. Indiana has probably gone democratic, with the result that Senator Turpie will succeed himself.

The republicans have carried Connecticut, Maryland, Massachusetts, Michigan, New Hampshire, North Dakota, Ohio, Pennsylvania, Rhode Island, and Washington and Wyoming.

Two congressional districts in Connecticut are in doubt. Delaware is claimed by the republicans. The republicans probably elect two congressmen in Kentucky, the rest of the state being solidly democratic.

Maryland probably sends one democrat to congress, the other districts electing republicans. The republicans may have one congressman out of a solid democratic delegation from Missouri.

Montana and Nebraska are in doubt, both parties claiming the victory. Iowa is entered in the republican column, though one democratic seat in congress has been gained. Kansas is republican. The fusion ticket was elected in Colorado. California elected the republican ticket.

In the eastern states there are various breaks in the republican delegations. One congressional district in New Hampshire is in doubt. The democrats have probably elected two congressmen in New Jersey. The democrats will have at least six congressmen from Pennsylvania.

The only breaks in the solid democratic delegations from the south seem to be in Tennessee and Texas, in each of which states the republicans elect one congressman. West Virginia is very close, the republicans claiming the state by a slight majority.

The returns from Wisconsin show an extraordinary close contest. The republicans claim the election of Gov. Scofield and the state ticket.

In Illinois the democrats have elected at least twelve congressmen out of a delegation of twenty-two. Ex-Speaker Curtis is defeated in the Kankakee district. The re-election of Senator Humphrey in the Seventh district is in doubt. Cook county elects at least four democratic congressmen out of seven.

Gov. Pingree won in Michigan with the aid of the fusionists.

The democrats won two congressional seats in Pennsylvania.

CHAIRMAN BABCOCK'S FIGURES.

Says Republicans Will Control House of Representatives.

Washington, Nov. 9.—Chairman Babcock of the republican committee still claims thirty-seven majority for the republicans in the next house. His figures are that there will be 197 republicans in the house, or twenty more than a majority, giving the party a majority of thirty-seven.

Mr. Babcock, in his statement, claimed the following for the republicans: Alabama, 1; California, 5; Connecticut, 4; Delaware, 1; Illinois, 14; Indiana, 9; Iowa, 11; Kansas, 16; Kentucky, 3; Maine, 4; Maryland, 4; Massachusetts, 12; Michigan, 11; Minnesota, 6; Missouri, 3; Nebraska, 4; New Hampshire, 2; New Jersey, 6; New York, 22; North Carolina, 2; Ohio, 15; Oregon, 2; Pennsylvania, 23; Rhode Island, 2; South Dakota, 1.

Iowa, 2; Tennessee, 2; Texas, 1; Vermont, 2; Virginia, 1; West Virginia, 4; Wisconsin, 10, and Wyoming, 1—total, 197.

Mr. Babcock admits that doubtful districts may cut from this list several names, but he is positive that these reductions cannot possibly reduce it below a good, safe working majority for the republicans.

The following table is made up from Mr. Babcock's figures:

State	Repub-	Oppo-
	lican.	sition.
Alabama	1	8
Arkansas		6
California	5	2
Colorado		2

Mr. Babcock has very meager advices from the far west, and he has conceded to the opposition all that he does not know is republican. He has no advices from Washington, and credits the state to the democrats. He expects the west to show better results than he has indicated in the table given, but he is absolutely certain of the house by a good working majority.

Republican Gains in Ohio.

Columbus, O., Nov. 9.—Incomplete returns indicate that the republican plurality on the state ticket will exceed the plurality of 51,109 for McKinley for president in 1896, and probably double the plurality of 28,105 for Bushnell for governor last year. The republicans elect fifteen of the twenty-one congressmen, and four districts are carried by the democrats. Two districts, the Third and Twelfth, are in doubt. The present delegation in congress is fifteen to six.

New Jersey Gains Republican.

Trenton, N. J., Nov. 9.—Republican victory is conceded by the democrats. The estimates of Foster M. Voorhees, plurality for governor run from 10,000, the democratic figure, to 25,000 and 30,000, the republican estimates. James Smith, Jr., democrat, it is conceded, is defeated for another term in the United States senate, as the legislature is safely republican by from eight to ten majority. Six of the eight congressmen have been elected by republicans, and possibly seven.

Result in Missouri.

St. Louis, Nov. 9.—The returns from the Eighth Missouri, Bland's district, are incomplete, but enough have been received to indicate the re-election of the free silver champion by a majority ranging from 1,500 to 2,000. This will be a falling off in his majority of upward of 1,000. On other candidates the state has gone democratic by 40,000 majority. The democrats elect the entire congressional delegation, with the exception of Barthold of St. Louis.

John Lind Is Elected.

St. Paul, Minn., Nov. 9.—The election returns of Minnesota are sweet music to democratic ears for the first time in forty years. That John Lind is elected governor is quite obvious from the figures already in, although not one-tenth of the state has reported. As to the remainder of the state ticket, however, not much is yet known further than that the republicans are leading and are probably successful.

Result in North Dakota.

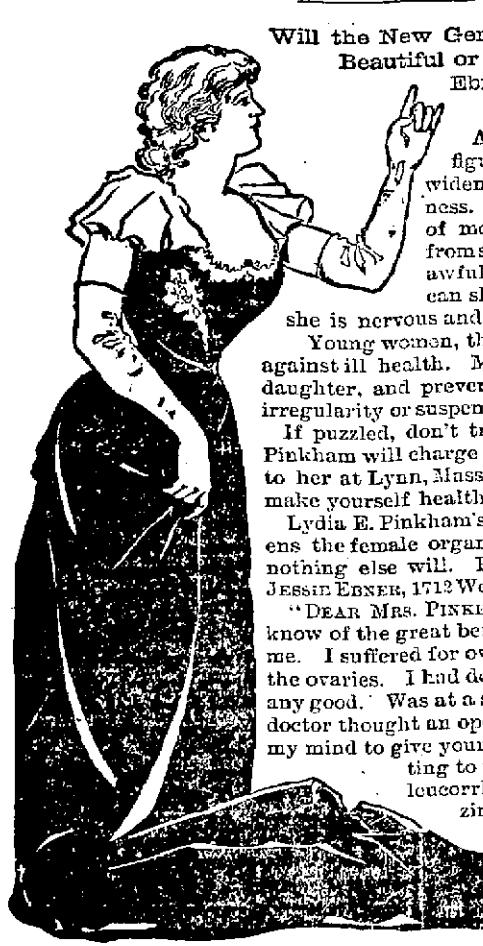

Fargo, N. D., Nov. 9.—Reports from over the state are very meager, but indicate slight republican gains over 1896, except in Grand Forks county, where the republican ticket was badly cut. Spaulding and Fancher, republicans, for congress and governor, are running ahead in Fargo, but the vote is far from being counted. An estimate on the state gives the republican ticket 4,500 majority.

South Carolina Democratic.

Charleston, S. C., Nov. 9.—The democrats have swept everything before them in South Carolina. The democrats elect the seven congressmen and the entire state ticket. The legislature will be democratic, save perhaps in the Kentucky in Democratic Hands.

Louisville, Ky., Nov. 9.—The democrats have elected nine and possibly ten out of the eleven congressmen from Kentucky and have elected a judge of the court of appeals. In all but three districts they have large ma-

MRS. PINKHAM TALKS TO THE FUTURE WOMAN.

Will the New Generation of Women be More Beautiful or Less So? Miss Jessie Ebner's Experience.

A pleasing face and graceful figure! These are equipments that widen the sphere of woman's usefulness. How can a woman have grace of movement when she is suffering from some disorder that gives her those awful bearing-down sensations? How can she retain her beautiful face when she is nervous and racked with pain?

Young women, think of your future and provide against ill health. Mothers, think of your growing daughter, and prevent in her as well as in yourself irregularity or suspension of nature's duties.

If you will, don't trust your own judgment. Mrs. Pinkham will charge you nothing for her advice; write to her at Lynn, Mass., and she will tell you how to make yourself healthy and strong.

Lydia E. Pinkham's Vegetable Compound strengthens the female organs and regulates the menses as nothing else will. Following is a letter from Miss JESSIE EBNER, 1712 West Jefferson St., Sandusky, Ohio.

"DEAR MRS. PINKHAM:—I feel it my duty to let you know of the great benefit your remedies have been to me. I suffered for over a year with inflammation of the ovaries. I had doctor, but no medicine did me any good. Was at a sanatorium for two weeks. The doctor thought an operation necessary, but I made up my mind to give your medicine a trial before submit-

ting to that. I was also troubled with leucorrhœa, painful menstruation, dizziness, nervousness, and was so weak that I was unable to stand or walk. I have taken in all several bottles of Lydia E. Pinkham's Vegetable Compound and Blood Purifier, and am now in good health. I will always give your medicine the highest praise."

PHILIPPINES FOR BARTER.

Berlin Dispatch says the United States is dickered with Britain.

Lima, O., Nov. 9.—The Evening Times in a double-headed editorial says that a private dispatch from Berlin received says the British war preparations are connected with the Philippine question, in which the United States is working in an agreement with England. The rumor is revived that the United States intends to cede Great Britain some of the islands, or at any rate a coaling station. The editorial, which claims to be inspired, says the United States will keep the Philippines in their entirety, not because the administration believes it advisable to own and control territory so far east, but because of an understanding with Great Britain that after the United States gets absolute control and ownership these islands are to be traded to Great Britain for Canada.

YOU CANNOT CURE PILES

By Internal Remedies

The only way to cure piles in every form is to use remedy like the Pyramid Pile Cure which is applied directly to the parts affected and its wonderful healing effects are felt on the first application because the medical properties are rapidly absorbed by the sensitive membranes of the rectum and the cure is speedily made, and almost before the patient is aware of it, every trace of piles has left him.

This is one reason why the Pyramid Pile Cure has been so successful. It is applied directly where it is needed and where it will do the most good. Not by the roundabout way of the stomach nor by the harsh, barbarous methods of various surgical operations and so called systems.

Its advantages over all other pile cures are these: It cures without pain, the cure is lasting, it contains no poison and is the quickest and cheapest cure yet found. It is made by the Pyramid Drug Co., of Marshall, Mich., and sold by all druggists at one dollar per package.

Lacon Lynchers May Escape.

Peoria, Ill., Nov. 9.—The body of George Stewart, the negro lynched near Lacon for an assault upon Mary O'Brien of Toluca, was buried on a farm near Lacon at the expense of the county. Up to the present time the authorities of Marshall county have taken no steps to apprehend the lynchers. Advices from Toluca are to the effect that Miss O'Brien is rallying from her terrible experience and that she is likely to recover.

The Casualties of Our Recent War. From the first our war with Spain was a series of rapid surprises, with everything favoring this country. Now that hostilities have terminated, it is possible to consider what is probably the most surprising feature of the whole struggle—the American losses in killed and wounded. Beginning with the first attempt to land troops in Cuba, and ending with the surrender of Manila, it is found that the navy had one officer and eighteen men killed and three officers and forty men wounded, and the army, twenty-three officers and 231 men killed and eighty-seven officers and 1316 men wounded, a total of twenty-four officers and 248 men killed, and ninety officers and 1356 men wounded. It may be said that almost all of the American casualties occurred in the three days' operations before Santiago de Cuba. Spanish casualties are unknown, yet we may assert that many single battles in our civil war were fought with greater losses in killed and wounded than the entire casualties on both sides in our war against Spain.

A Chinese Declaration.

China is the only country in the world where editors give a thoroughly satisfactory reason for the return of manuscript. Here is a sample letter, sent by a Peking editor to would-be contributor to his journal:

"Illustrious brother of the sun and moon! Look upon thy slave who rolls at thy feet, who kisses the earth before thee and demands of thy charity permission to speak and live."

"We have read thy manuscript with delight. By the bones of our ancestors we swear that never have we encountered such a masterpiece. Should we print it his Majesty the Emperor would order us to take it as a criterion and never again to print anything which was not equal to it. As that would not be possible before ten thousand years, all trembling we return thy manuscript and beg of thee ten thousand pardons. See—my hand is at my feet and I am the slave of thy servant."

A Steel Bird's Nest.

In the natural history museum at Soleure, in Switzerland, may be seen a bird's nest made wholly of steel wire. There is at Soleure a considerable number of watchmakers, and in their yards are pieces of cast-off or broken watch-springs. This debris a bird thought proper to use for the construction of its nest. One day a watchmaker observed in a tree in his yard a very queer-looking nest. He examined it closely, and saw that it had been made entirely out of watch springs. It was more than a decimeter (2-5 in.) wide and was perfectly adapted to its object. When the brood had been raised the nest was taken down and given to the museum, where it is a striking example of the adaptiveness of birds in taking advantage of circumstances in building their nests.—Cosmos.

The Return of Our Foreign Trade.

The returns of our foreign trade for August show the heaviest exports of merchandise in any summer on record. There was a falling off in shipments of breadstuffs as compared with August, 1897, but this was more than offset by an increase in exports of cotton, meat products and manufactured merchandise. The imports were smaller than in any preceding August for twelve years, with the exception of 1897 and 1898; and the "balance of trade" in our favor was more than \$35,000,000. These figures indicate that we are supplying our own needs to an increasing extent, and are taking in gold or its equivalent the difference between what we sell abroad and what we buy there.

Artesian Wells in the West.

In South Dakota most successful results are being achieved with artesian wells. Their use for supplying water for irrigation doubles and triples the yield of the land. A single well over one thousand feet deep is cited, which gives sufficient water for nearly two square miles of land. Other wells are but one hundred feet deep. Even the climate of a region may be modified by the surface distribution of such quantities of water, and the consequent vegetable growth covering the otherwise barren areas.

France Wants Our Coal.

Coal has reached an enormous price in France this summer because of the labor troubles in England. At retail it sells for 45 to 50 francs (\$8.68 to \$9.65) a ton, and people don't know where their winter supply is coming from. This news comes from our consul at La Rochelle, who reports that American coal would be acceptable there.

More Sample Cloaks.

In this week, another line of Jackets—samples from an Eastern maker; includes many of the shades that are scarce, such as tan, castor, brown and blue. No two garments in the line are alike, and in addition to this feature we shall offer them at our well known sample prices, which means a saving of one-third. If you have not been able to find a coat that suits you, come in and look through this line and we believe you will find a garment to please you. We have made ample provision for ladies wearing larger sizes than the average and are showing a very satisfactory lot of coats in sizes 38, 40, 42, 44 and 46 bust measure. Judging from the large sale we have had on Misses' and Children's Coats, we believe our line is far the best in town; certain it is that we never sold so many garments in the same time as have been sold so far this season.

THE VOTING IN THE STATES.

Results of the Count Throughout the Country.

FIGURES NOT YET DECISIVE.

Later Returns May Disappoint the Party Leaders—Democrats Claim Illinois House of Representatives—Gov. Pingree and State Ticket Win in Michigan.

Chicago, Nov. 9.—It looks as if the republican plurality in Illinois has been reduced from 141,000 in 1896 to 30,000 or less in 1898. This represents approximately the pluralities of Floyd K. Whittemore over M. F. Dunlap for state treasurer.

The legislature will be close. Sparse returns indicate that the democrats will control the lower house by a narrow margin. In the fortieth assembly there were 88 republicans, 62 democrats and 2 populists. It looks now as if there would be 79 democrats in the lower house of the forty-first general assembly, 73 republicans and one prohibitionist. Six of this democratic gain are from Cook county.

The senate will remain republican, but the democrats have gained seven, three in Cook county and four in the country. One Chicago's district, the twenty-third, is still in doubt and may be democratic. Two districts are also doubtful in the county, the twenty-fourth and twenty-fifth, the latter of which involves a state senator.

CLOSE IN INDIANA.

Republican Are, However, Confident of Victory.

Indianapolis, Nov. 9.—The returns from members of the two parties in the several counties in the state to the chairmen of the respective committees are very conflicting, but the weight of testimony is in favor of republican success, and it is more than probable that complete returns, which will not be received before late today, will show that the republicans have carried the state by from 8,000 to 10,000 majority.

While the returns from fifty-four counties, which are not, however, complete, indicate an increase over the majority of two years ago, it is construed that this will be greatly reduced by the returns from this, Marion, county, which will show a large republican decrease, and possibly a democratic majority.

The reports so far are from the towns and cities of the state, and none has been received from the precincts that are not easily accessible to telegraph stations.

There is some danger to the republicans in this fact, and the democrats are taking some comfort from the conditions, but it is hardly probable that the country districts will show sufficient democratic gain to overcome the majority of 18,000 for McKinley two years ago.

If the state is republican by the figures indicated, the legislature will also be republican, and the democrats will not make any gain on congressmen, if, in fact, they are able to hold the four districts which are now represented by that party in congress.

SCOFIELD GOES IN.

Wisconsin Republicans Win with Decreased Plurality.

Milwaukee, Nov. 9.—The republicans came out victorious from the fight at the ballot box, though with considerable loss in plurality, as compared with that of 1896, when President McKinley received 103,000 and Gov. Scofield 95,000.

The republicans elect their state ticket, eight or nine congressmen, a working majority in the lower house and two-thirds of the seventeen senators elected this year, which will give them an overwhelming majority in the senate.

The returns are slow in coming in, and less than one-tenth of the towns in the state have been heard from, but these returns showed that the republican ticket was safe.

Gov. Scofield, contrary to general expectation, did not fall much behind the remainder of the state ticket, in spite of the bitter fight which was made against him personally. He will have within 5 per cent of the vote which the rest of the ticket receives.

On the basis of the returns already received it looks as if the state ticket would receive a plurality of between 25,000 and 35,000, and there will be little difference between the vote for governor and the rest of the ticket.

NO CLASH AT THE POLLS.

Election Day Passes Off Very Quietly in North Carolina.

Wilmington, N. C., Nov. 9.—The democrats have apparently carried the dangerous counties of this state without the aid of shotguns or the shedding of blood. In this county almost every negro who had registered appeared at the polls and voted without hindrance. Almost at the last moment the democrats, feeling sure of the result, abandoned their avowed intention of keeping the negroes away from the polls and allowed them to vote as they pleased.

So far as can be learned the election throughout the entire state has been exceedingly quiet and orderly. Most of the stores were closed. In order to avoid the slightest chance of danger the saloons will remain closed until Thursday.

STONE IS ELECTED GOVERNOR.

Republican Candidate in Pennsylvania Has a Heavy Plurality.

Harrisburg, Pa., Nov. 9.—Stone, the republican candidate for governor, will have a plurality over George W. Jenkins,

the democratic candidate, variously estimated from 35,000 to 70,000. It is believed that Quay still retains control of the legislature and can go to the United States senate again. No figures are available on congressmen, but it is claimed by the republicans that they will have as many members of the lower house as in the last congress. The democrats claim to have gained four or five members.

For governor, the Rev. Silas C. Swallow, independent, it is claimed, ran behind his vote of last year for treasurer. His failure to poll a heavy vote was a surprise and a disappointment to his backers.

GOV. PINGREE WINS.

Republican State Ticket Is Elected in Michigan.

Detroit, Mich., Nov. 9.—Gov. Pingree held his own in Tuesday's elections. The republican state central committee claims his election by from 50,000 to 60,000 majority. The democratic state committee do not yet concede defeat.

The governor ran several hundred ahead of his ticket in Detroit, and ran up a plurality of 2,000 in Grand Rapids. In Saginaw he doubled on his plurality of 1896. In Jackson, Lansing, Bay City and other smaller cities he was cut considerably, but the country districts surrounding went quite strongly for Pingree. The balance of the republican state ticket is elected. The upper peninsula gave its usual republican majorities, but there was a great amount of splitting on governor in the lower peninsula. The vote on congressmen is close in half of the twelve districts, the others returning republicans with certainty.

The legislature will have a republican majority, but whether Pingree or anti on the equal taxation issue is as yet undetermined.

ROOSEVELT A WINNER.

Captures the Empire State—The Entire Ticket Elected.

New York, Nov. 9.—Col. Theodore Roosevelt is elected governor of the Empire state. The entire state ticket went in with the rough rider and the legislature remains republican on joint ballot, assuring the election of a republican to succeed the present democratic United States senator, Edward Murphy, Jr., of Troy.

Col. Roosevelt's plurality is estimated all the way from 10,000 to 35,000 on incomplete returns.

Nebraska Appears for Fusion.

Omaha, Neb., Nov. 9.—Unless the vote becomes much more erratic than at present the entire fusion ticket of the state is elected, but by materially reduced pluralities, losing from 5,000 to 6,000 votes, which are gained by the republicans. In this event the state ticket will be: Poynter, governor; Gilbert, lieutenant governor; Meserve, treasurer; Cornell, auditor; Porter, secretary of state; Wolfe, commissioner of public lands; Jackson, superintendent of instruction. Both sides are very sanguine of carrying the legislature, at least by a small plurality.

Good News for Sick Soldiers.

Springfield, Ill., Nov. 8.—Capt. R. P. Page Wainwright, United States army chief paymaster in Illinois, has decided that soldiers unable to be present at the muster out of their commands can, on presentation of surgeon's certificate, be granted an additional furlough and paid to the time of final muster out, and has been sustained by the war department telegraphing that his ruling was right. The department also held that soldiers admitted to hospitals and unable to be mustered out with their regiments should receive pay to time of discharge from the hospital and muster out.

A Sure Sign of Croup.

Honestness in a child that is subject to croup is a sure indication of the approach of the disease. If Chamberlain's Cough Remedy is given as soon as the child becomes hoarse, or even after the croupy cough has appeared, it will prevent the attack. Many mothers who have croupy children always keep this remedy at hand and find that it saves them much trouble and worry. It can always be depended upon and is pleasant to take. Fashoda Question Shelved.

Paris, Nov. 9.—The chamber of deputies resumed its sittings Tuesday with a crowded attendance in anticipation of a debate on the Fashoda question. But those present were disappointed by M. Brunot announcing that he withdrew his interpellation on the subject.

Dear Madge: Meet me Monday at the dining rooms of Mrs. Clark Co., 1515 Wabash avenue, Chicago. This is the most delightful place in all Chicago to eat and is in the very heart of the shopping district. Carrie.
